The semiannual meeting of the road commissioners of the several towns of the county was held at the county was held at the county was held at the county was represented by its road commissioner, and Marcus Peck of the state highway commission was also present. J. B. Wells of kandolph was elected chairman and Cassius Peck of Brookfield, secretary. A discussion and comparison of the various methods pursued by the different commissioners brott out many helpful suggestions and each gained some advantage from the experience of the others. Especial stress was laid by State Commissioner Peck on the necessity of keeping the money received from the five-per cent state tax entirely distinct from that received from the town tax, and using it for essentially permanent improvements, confining its use to a small enough bit of road to permit of particularly thorough work.

larly thorough work.

At the meeting of the stockholders of the Bell Shoe company last Tuesday, no action was taken on the article to "see if the stockholders will vote to choose an agent sodeed the Bell Shoe company property to the endorsers of the Bell Shoe company property to the endorsers of the Bell Shoe company paper, to save a foreclosure." A majority of the stockholders present seemed to think that the sale of the property at public auction would net them more than the amount of the debt. But as nothing looking toward an action of this kind could be done under the call which had been issued, the meeting adjourned after a lengthy discussion. Another meeting is to be called for next Monday, May 18th, at 3 o'clock p. m., "To see if the stockholders will instruct the directors to sell the property of the company at public auction to the highest bidder, after giving suitable notice of such sale, and will appoint an agent to deed the said property when sold. To transact any other proper business."

Shake the Bottle

Is too often placed upon prescriptions sent out by druggists to cover up their ignorance or carelessness. There is a way of combining drugs that makes an elegant and palatable medicine, sure in its remedial effect. Or they may be thrown together in a careless, haphazard way, and only a dirty, muddy mixture, good for nothing, is the result. There are to be sure some prescriptions that cannot be so compounded as not to need a "shake" label, but we use the utmost care in compounding all prescriptions left with us and endeavor to make the most elegant and agreeable preparations possible, while fully carrying out the physician's directions. We make our prices as low as possible and slways charge you nothing extra for the "know how."
